Tuesday Seminar

**Recent developments in the marine N₂ fixation studies:
New results from the North Atlantic Ocean**

Abstract

Global N₂ fixation results might have been hampered by the use of inadequate methodology. Recent studies have highlighted various problems in the previous methods. In addition, some impurities have been detected in the tracer used to estimate N₂ fixation. In this seminar, we shall discuss all such issues along with some new results from the North Atlantic Ocean.

Speaker: Dr. Arvind Singh, Postdoctoral Fellow
GEOMAR, Helmholtz Centre for Ocean Research Kiel,
Germany

| Date | Time | Venue |
|-------------|-------------|---------------------------|
| 6-Jan-2015 | 16:00 hrs | Ground Floor Lecture Hall |

All are invited to attend and participate in discussion
Tea at 15:30 hrs

Neeraj Rastogi, Seminar Secretary, Geosciences Division
