

### Area Seminar

Title The Top Way to the Bottom of Things.

Date and Time 02/03/2010 16:00:00

Speaker Prof. Debajyoti Chaudhuri  
Professor  
Univ. of Delhi

Area Theoretical Physics

Venue Room No. 469

Abstract With the first papers from the LHC being published, it is imperative that we examine what we know of fundamental physics and what future experiments (primarily those at the LHC) can tell us about. In this talk, I argue that the study of the Top quark can potentially reveal much, mentioning alongside what all we still do not know.
