

### Area Seminar

Title	Higgs-to-diphoton in type II seesaw
Date and Time	28/03/2013 16:00:00
Speaker	Dr. Pankaj Sharma
	KIAS, Seoul
Area	Theoretical Physics
Venue	Room No. 469
Abstract	I will talk about Higgs-to-diphoton rate in type II seesaw model. We also discuss the constraints on the model parameter space coming from vacuum stability, perturbativity and electroweak precision tests. In the constrained parameter space, we study the modified Higgs-to-diphoton rate.
