

Area Seminar

Title	Theoretical Perspectives on a 125 GeV Higgs Boson
Date and Time	25/09/2012 16:00:00
Speaker	Sreerup Raychaudhuri
	TIFR, Mumbai
Area	Theoretical Physics
Venue	Room No. 469
Abstract	Assuming that the new boson recently discovered at CERN is the long-sought Higgs boson, the impact of this discovery on the Standard Model, on the future of LHC and on physics beyond the Standard Model will be discussed, from the perspective of a theorist.
