

Production And Pre-equilibrium Evolution Of Quark Gluon Plasma

Avijit K. Ganguly

Physical Research Laboratory
Navrangpura, Ahmedabad 380 009
India

A

Thesis

Submitted To

The M.S. University Of Baroda

For The Award Of The Degree Of

Doctor Of Philosophy

In

Physics

December 1993

Contents

Acknowledgements	vi
1 Physics Of Quark Gluon Plasma	1
1.1 Introduction	1
1.2 QCD at High Density and Temperature	3
2 $Q\bar{Q}$ Production In Presence Of Oscillating External Field	7
2.1 Introduction	7
2.2 Schwinger Mechanism: A Brief Outline	8
2.3 Some Exact Solutions of Yang Mills Equations	9
2.3.1 Solution of Yang Mills equations in (1+1) dimensions.	10
2.4 Estimating The Parameters	12
2.5 Estimation Of Pair Production Rate	16
3 Pair Production at Finite Temperature	24
3.1 Introduction	24
3.2 Introduction To Thermal Effective Action:	27
3.3 Effective Action	28
3.4 Computation of Effective Lagrangian From The Fermionic Determinant	30
3.4.1 Computation of Effective Lagrangian	31

4	Evolution In Phase Space	40
4.1	Introduction	40
4.2	Kinetic Equations	42
4.3	A New Mechanism For Equilibration	44
4.4	Conclusion	45
5	Hydrodynamic Evolution Of The Plasma	48
5.1	Towards Hydrodynamics Of Quarks And Gluons	49
5.2	Towards Quark Hydrodynamics	52
5.3	Study of Collective Oscillation of the Plasma	54
5.4	Conclusion	57
6	Summary	63
	List of Publications	65
