15-17 February 2022

14-16 March 2022

The Physical Research Laboratory, Ahmedabad, is organizing the 3rd Indian Planetary Science Conference (IPSC-2022) in an online mode. The conference aims at highlighting the recent advances, results and studies related to the atmosphere, surface and interior of planetary bodies in the solar system, including planetary processes and early solar system evolution. Contributions on modeling studies, remote sensing and *in-situ* observations from planetary missions, planetary analogues and laboratory studies are invited. Papers related to small bodies, exoplanets, astrochemistry, astrobiology and new planetary experiments are also solicited.
