

# Arvind Singh Rajpurohit

---

Astronomy & Astrophysics Division  
Physical Research Laboratory  
Thaltej Campus, Ahmedabad, Gujarat  
e-mail: arvindr@prl.res.in, +91-7926314602  
Date of Birth: 16-04-1985  
Marital status: Divorced

**Research Interest** Modelling the atmospheric properties of Very Low Mass stars and brown dwarfs using a radiative transfer code called PHOENIX. The majority of my work involves spectroscopic follow-up observations (both high and low resolution) from world-class observing facilities of these faintest components of our Milky Way galaxy and comparing them with state-of-the-art atmospheric models to determine their fundamental physical properties. I am also interested in studying the magnetic activity in M dwarfs with masses below  $0.35M_{\odot}$  where they become fully convective and, unlike solar-type stars, lack the tachocline region, which is thought to be essential for their magnetic field generation. More recently, I have started working on characterizing the atmospheric properties of ultra-hot Jupiters.

<b>Education</b>	2005: <i>Bachelor of Science (B.Sc)</i> Physics, Maths and Electronics Jai Narain Vyas University, Jodhpur, India
	2007: <i>Master of Science (M.Sc)</i> Applied Physics Faculty of Technology and Engineering M.S. University of Baroda, Vadodara, India
	2013 : <i>Doctor of Philosophy in Astrophysics (Ph.D)</i> <b>Title : Low-mass stars as tracers of Milky Way populations : investigating the effect of metallicity in cool atmospheres</b> Institut UTINAM CNRS 6213, Observatoire des Sciences de l'Univers THETA Franche-Comté Bourgogne, Univ. Bourgogne Franche-Comté & Observatoire de Besançon, France
<b>Observing experience</b>	During my carrier, I had an opportunity to utilize a variety of techniques employed in astronomy and gain substantial observing experience with some of the world's largest astronomical telescopes.
<b>Work Experience</b>	04/2008–04/2010 : <i>Project Associate</i> Physical research Laboratory, Ahmedabad, India
	10/2010–10/2013 : <i>Graduate student</i> Observatoire de Besançon, Besançon, France
	02/2014–11/2014 : <i>CNRS Postdoctoral Fellow</i> Laboratoire d' Astrophysique de Marseille (LAM), Marseille, France

11/2014–11/2015 : CNES Postdoctoral Fellow  
Laboratoire d' Astrophysique de Marseille (LAM), Marseille, France

12/2015–12/2020 : Reader  
Physical Research Laboratory, Ahmedabad, India

01/2021–present : Assist. Prof.  
Physical Research Laboratory, Ahmedabad, India

#### Involved and completed Projects

*Programme ID* : 089.D-0176 (PI)  
Confronting newest M dwarf model atmospheres with medium-resolution Near-Infrared spectra: Determination of their physical parameters and the effect of metallicity on the cool atmosphere, ISAAC@VLT

*Programme ID* : 290.C-5036 (PI)  
Star formation and origin of the Central Molecular Zone: L-band spectroscopy of SPITZER YSO candidates, ISAAC@VLT

*Programme ID* : 092.D-0600 (PI)  
Population II counterparts: The diversity of the dust properties and cloud physics in the atmosphere of cool subdwarfs using recent atmosphere models, XSHOOTER@VLT

*Programme ID* : 087.D-0586A (CoI)  
Investigating the effects of metallicity in cool atmospheres, UVES@VLT

*Programme ID* : 087.D-0586B (CoI)  
Investigating the effects of metallicity in cool atmospheres, UVES@VLT

#### Technical and Instrumental Development

CoI of optical spectro-polarimeter for 2.5 m telescope  
(PI: Dr. M. K. Srivastava, A&A Division PRL)

#### Administrative duties

Member of time allocation committee for PRL 1.2m telescope for three years until 2022  
Doctoral student representative, Administrative council, Institut UTINAM, CNRS, 2012, France

**Publication in referred Journal: 28, Conference Proceedings: 13, NASA-ADS citations: 1159, h-index: 18, Google citations: 1476, h-index:19**
