

We are looking for two (02) Junior Research Fellows and two (02) Research Associates/Post-doctoral fellows to work under the project "Free space quantum communication: Road to satellite quantum communication" sanctioned by Department of Science and Technology (DST), Government of India.

Essential Qualification for Junior Research Fellows:

M.Sc. in Physics or Photonics

Strongly motivated candidates with B.Tech. in Electronics and Communication can also be considered.

Preference will be given to candidates who have qualified national level tests such as NET/GATE/JEST

The JRF position is for three (03) years, however, it can be extended to five years if the candidate registers for a PhD program in a recognised institute/university.

The salary will be as per DST norms:

Essential Qualification for Research Associates/Post-doctoral Fellows:

PhD in Optics or Photonics

Candidates who have already submitted the PhD thesis and waiting for the degree can also be considered for the position.

Preference will be given to candidates who have already defended their thesis.

The position is for one year that could be extended for another two years depending on the performance of the candidate

The salary will be as per DST norms:
