RAMAN SPECTROMETER WORKSHOP -2025

16 DECEMBER, 2025

AHMEDABAD

ABOUT THE WORKSHOP:

Join our Raman Spectroscopy Workshop to delve into advanced methodologies for molecular characterization and material analysis. Experience practical, hands-on training with state-of-the-art instrumentation under the guidance of leading industry professionals.

APPLICATION OF RAMAN SPECTROMETER:

- Geology & Minerology.
- Earth and Planetary Materials.
- Material Science and Nanotechnology.
- Life Science & Medical Diagnostics.
- Explosives & Narcotics Detection.

HONORABLE GUESTS:

- Prof. Anil Bhardwaj, Director, PRL, Ahmedabad
- Prof. Sunil K. Singh, Director, CSIR-NIO, Goa
- Dr. Sunil R. Parekh, Senior Strategy Advisor, Zydus Cadila Healthcare Ltd.
- Dr. A.K. Srivastava, IIT, Gandhinagar/ Director, MSIT, Delhi

PROGRAM SCHEDULE:

Time	Speaker
9.45 AM	Welcome and Inaugural Address: Prof. Anil Bhardwaj, Director PRL
10.00 AM	NMITLI project- Make In India Raman Spectrometer: A success story: Dr. AK Srivastava
10:30 AM	Tea Break
11:00 AM	Dr. Tarun Sharda, TechnoS Instruments
11:30 AM	Dr. Dwijesh Ray, PRL
12:00 PM	Development of LIBS-Raman spectrometer for Mars Exploration by Dr. Prashant Kumar, PRL
12:30 PM	Raman microscopy of organic matters in meteorites by Prof. Kuljeet K. Marhas and group, PRL
1.00 PM	Lunch Break
14:00 PM	Hands on Demonstration of IndiRAM CTR300 Raman Spectrometer
16:30 PM	Vote of Thanks, Dr. Dwijesh Ray
